## **Medical Writer (f/m) (Medical Writing and Document Management)**

In this in-house position you are responsible for providing scientific and related medical writing expertise regarding clinical research for investigational drugs in the field of plasma products for the CSL Behring Clinical Research & Development (CRD) organization.

### **Responsibilities:**

- Preparation of regulatory and study related documents including study protocols, investigator brochures, study reports and CTD documents.
- Management of external medical service providers and resource planning.
- Participate in the preparation of responses to regulatory agencies.
- Review of publications, abstracts, and posters.
- Develop writing tools such as style manuals and templates. Take primary responsibility for clinical document template creation, use and maintenance.

### **Qualifications and Competencies:**

- Degree in natural science, preferably with a PhD; or with education in natural sciences.
- Experience in medical writing, ideally in the indications immunology, hematology, or neurology.
- Excellent level of English language proficiency, both written and spoken.
- Expert MS Office skills with a special focus on word processing, tables and graphics, spreadsheets, presentations and templates.
- Flexibility to work independently and within a team.
- Excellent communication and interpersonal skills and ability to maintain working relations both internally and externally.

If you are interested in this challenging career opportunity, please send your CV and application form to Inga Koradin.
