

Miltenyi Biotec is an internationally operating biotechnology company based in Bergisch Gladbach near Cologne, Germany. The company was founded in 1989 and has rapidly expanded to become one of Germany's largest biotechnology companies, now employing more than 1,100 staff. The product portfolio comprises reagents, instruments, and services for bioscience research and clinical applications, with a particular emphasis on cell separation, immunotherapy, and tissue regeneration.

An exciting opportunity has arisen for

Communication Managers (m/f)

to strengthen our Marketing Communications department. Reporting directly to the Head of Marketing Communications, this role requires the talents of an organized individual who is a self-starter and who will appreciate the scope of potential career development offered by Miltenyi Biotec and its global business.

As part of the communications team, the Communications Manager will primarily coordinate the production of promotional material and copyedit a wide range of written work including customer journals, the internal company newspaper, advertisements, product catalogs, and product flyers. Working in close cooperation with the R&D department and product managers, he/she will generate and update product data sheets as well as hardware and application manuals. In performing these tasks, he/she will have an opportunity to specialize in subject areas that include instrumentation, molecular biology, stem cell biology and clinical cell therapies.

The successful candidate should have a strong background in life sciences, preferably in cell biology, molecular biology, biophysics, hematology or oncology, and a proven track record of scientific communication. Copyediting experience is an advantage, and because the company language is American English, native English speakers will be preferred. The applicant should enjoy the challenge of communicating science to various target groups, that is, from scientific or clinical specialists to mainstream audiences. It is essential that the candidate has excellent project management skills and is able to organize and prioritize multiple projects.

You will have the opportunity to work with highly motivated colleagues on advanced technologies in a dynamic, expanding biotechnology company. If you consider yourself a team player and feel ready for this challenge, please send us your resume to the following address.

Miltenyi Biotec GmbH, Human Resources, Friedrich-Ebert-Straße 68, 51429 Bergisch Gladbach, Germany
