

ClearPoint Media is excited to offer an excellent opportunity for an experienced medical writer to lead a team of content developers in the creation of eLearning, classroom training, and digital media solutions for the Life Sciences industry. As Lead Content Developer you will oversee all content development to ensure that materials are accurate, credible, clear, and instructionally sound as well as aligned to client's training and communications objectives.

Salary/Benefits: Competitive

Location: London

Please send application letter and CV to: info_uk@clearpointlearning.com

Job Description

The primary responsibilities for this position are to:

- Manage the production of content for training projects to ensure the delivery of consistently high-quality materials on schedule, within budget, and to defined standards
- Write materials for delivery via eLearning, live classroom and virtual workshops, video, audio, and mobile and web 2.0 platforms
- Define and implement content development best practices and standards.
- Provide training and ongoing mentoring to junior Content Development resources
- Collaborate with various team members and client subject matter experts in the development of engaging and effective solution designs

Candidate Requirements

- Highly refined and effective written and oral communication skills
- Bachelor's degree in English, journalism, science, or arts; Life Sciences education and/or professional experience a plus
- At least 5-8 years of prior experience in content development, instructional design, training, and medical writing
- Demonstrated ability to develop fluency quickly in advanced and complex processes
- Proven ability to think visually and creatively translate source content into illustrations, animations, etc. in order to make difficult content easy to understand and compelling for the intended audience
- Proven success in managing the on-time delivery of one's own work as well as that of a small team within tight deadlines and budgetary constraints
- Self-directed, flexible, with the desire to cultivate new ideas and embrace various technologies
- Collaborative style that will work well in teams across departments in a global, multi-cultural environment
